SERVICE AND REGULATORY ANNOUNCEMENTS.

BUREAU OF ANIMAL INDUSTRY.

AUGUST, 1922.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

On page 10, change initials of Dr. Smith, Nashville, Tenn., from "E. D." to "E. I."

On page 46, under the station of Albert Lea, Minn., place letter "Y" after the first establishment number making same read "20-Y;" also add "F" to second establishment number, so as to read "20-F" (Faribault, Minn.), instead of "20" in both instances.

NOTICES REGARDING MEAT INSPECTION.

ADDITION OF WATER TO SAUSAGES.

Referring to that part of paragraph 5, section 6, Regulation 18, permitting the addition of water in excess of 3 per cent to certain classes of sausages, this regulation is not intended to permit the addition of unlimited quantities of water to sausage of this type, but only to permit the addition of sufficient water to compensate the unavoidable losses incident to smoking and cooking. The bureau, therefore, will regard as adulterated any sausage of this class found to contain, in the finished product, more water than is normal to fresh meat. Inspectors in charge of meat inspection will pay close attention to the addition of water to sausages of this type and submit samples for laboratory inspection if excessive quantities of water are used or if the methods of preparation do not appear to be such as will eliminate the excessive water.

REPORTING MOVEMENT OF MEAT PASSED FOR STERILIZATION.

Reports M. I. 140 having been discontinued, inspectors in charge of meat inspection are requested to disregard the note at the foot of M. I. Form 109 and hereafter see that the data covering shipments and receipts of meat passed for sterilization are included in reports M. I. Form 109.

MEATS FOR THE NAVY.

Meats which have been frozen prior to bureau inspection for Navy specifications are not acceptable to the Navy. Inspectors in charge of meat inspection will be governed accordingly in furnishing inspection and applying the special Navy brand to meats intended for the Navy.

INSTRUCTIONS FOR INSPECTORS IN CHARGE.

Inspectors in charge of bureau stations are requested in correspondence with the Washington office to indicate after the words, "Chief of Bureau" at the beginning of the letter, the division having charge of the matter referred to in the letter. For example, if the letter concerns the enforcement of the twenty-eight hour law, the superscription should read:

Chief of Bureau,
Attention Field Inspection Division.

If the subject is the inspection of import meats, it should then read:

Chief of Bureau,
Attention Meat Inspection Division.

Correspondence regarding employees on the force should indicate in the body of the letter the class of work to which the employee is assigned.

Careful compliance with these instructions will result in more expeditious handling of station matters and will avoid confusion in the Washington office.
